

Remanufactured Press Rams

NEW FROM LUBBOCK ELECTRIC CO.

LECO employees unload a damaged ram to be repaired.

Lubbock Electric Co., in conjunction with Hydraulic Services and Supply of Ashland, Kentucky, will be providing repair or replacement for most of the popular gin press rams. All units will be reworked to mill specs and the sixteen inch (or larger) rams come with a two-year pro-rated warranty.* Units will be sold on an exchange basis during gin season.

Rams currently in stock

- Lummus 16" Gin DorLes – Double Top Ports @180°
- Lummus 16" EE – Double Bottom V-Ports @75°
- Lummus 14" Lift Box (8-3/8" Rod)
- Lummus 18" Premier – Double Bottom Ports @180°
- Lummus 14" Gin DorLes – Single Top Port
- Lummus 14" EE – Single Bottom Port
- Lummus 10" Top Ram (Fits all Lummus)
- Continental 12" BesPress (8-1/2" Rod)

A typical repair includes:

- Disassemble ram and casing
- Turn down ram to remove chrome
- Hard-coat underlying malleable iron
- Chrome plate & polish to original diameter
- Dye test all casing welds for cracks
- Hone Cylinder Tube
- Inspect & repair flange/threaded connections
- Install new packing
- Re-insert rams
- Test rams/casing to full pressure
- Paint & secure for shipping

OPEN 24-7 DURING GIN SEASON
WE CAN SHIP ANYWHERE!

*The two-year pro-rated warranty provides 100% repair or replacement if the unit fails during the first season. During the second season, 50% of the purchase price will be allowed toward the repair or replacement of the defective unit.
